

Workshop 01 (Saturday 19/10/24)

A Review of HTML and CSS

Contents:

- HTML Sematic Tags, Structure,
- Bootstrap
- Deploy your static web
- Exercises

Part 1: HTML

1. Sematic tags

a. What is HTML5 Semantics:

HTML5 Semantics refers to the use of specific tags like **<header>**, **<footer>**, **<nav>**, **<section>**, etc.

b. Why Do I Need to Use Semantic HTML Tags?

- Enhances website accessibility.
- Improves search engine optimization (SEO)
- Clearer structure and meaning to content
- Fosters better understanding by both users and machines.
- Leading to improved usability and user experience.

2. SEO Meta Tags: Include essential meta tags for SEO.

```
<title>HTML Semantic Tab</title>
```

```
<meta
```

```
  name="description"
```

```
  content="A brief description of your page content." />
```

```
<meta name="robots" content="index, follow" />
```

```
<meta charset="UTF-8" />
```

```
<meta name="viewport" content="width=device-width, initial-scale=1.0" />
```

```
<meta http-equiv="refresh" content="30;url=https://example.com" />
```

3. Open Graph (OG) Tags: Add OG tags for better social media sharing: Open Graph (OG) tags are HTML meta tags that control how URLs are displayed when shared on social media platforms like Facebook, LinkedIn, and Twitter.

```
<meta property="og:title" content="Austin Hill - Software Engineer" />

<meta
  property="og:description"
  content="Single Page, a Software Engineer." />

<meta
  property="og:image"
  content="https://res.cloudinary.com/duidrgg1k/image/upload/v1725421776/male-
  technologist_n0fbey.png" />

<meta property="og:type" content="website" />

<meta property="og:url" content="https://austinhill.dev" />
```

Exercise 1: Try to structure the page using HTML

[File directory: Web-Lab-UWE-IU/Lab 1/Lab Practice/Excercise 1.html](#)

```
<!DOCTYPE html>

<html lang="en">

  <head>

    <!-- SEO Meta Tags -->

    <title>HTML Semantic Tab</title>

    <meta
      name="description"
      content="A brief description of your page content." />

    <meta name="robots" content="index, follow" />

    <meta charset="UTF-8" />

    <meta name="viewport" content="width=device-width, initial-scale=1.0" />

    <meta http-equiv="refresh" content="30;url=https://example.com" />
```

```

<!-- Open Graph Meta Tags -->

Scott Sampson*

</p>

<p>

What's 75 million years old and brand spanking new? A teenage Utahceratops! Come to the Saroyan, armed with your best dinosaur roar, when Scott Sampson, Research Curator at the Utah Museum of Natural History, steps to the podium. Sampson's research has focused on the ecology and evolution of late Cretaceous

dinosaurs and he has conducted fieldwork in a number of countries in Africa.

Our Mission

San Joaquin Valley Town Hall is a non-profit organization that is run by an all-volunteer board of directors. Our mission is to bring nationally and internationally renowned, thought-provoking speakers who inform, educate and entertain our audience! As one of our members told us:

"Each year I give a ticket package to each of our family members. I think of it as the gift of knowledge...and that is priceless."

Speaker of the Month

Fossil Threads in the Web of Life

February
Scott Sampson

What's 75 million years old and brand spanking new? A teenyag Utahceratops! Come to the Sanyan, armed with your best dinosaur roar, when Scott Sampson, Research Curator at the Utah Museum of Natural History, steps to the podium. Sampson's research has focused on the ecology and evolution of late Cretaceous dinosaurs and he has conducted fieldwork in a number of countries in Africa.
